

February 2005
Dear YIPs,

A belated happy New Year! We wish you happiness and lots of success for 2005!

YIP brochures

The new brochures featuring the YIPs from 2002-2004 are ready. They will be sent to you in the next couple of days. The present members will receive an extra mailing with four additional copies for distribution.

PhD course 2005

The course will take place from 4 - 11 September at the EMBL. There is space for 36 students. YIP-organizers are Bassem Hassan, Daniel Otzen, Ildiko Szabo and Christian Ungermann.

You should have received a separate invitation to forward to your students earlier. Please ask your interested students to apply.

YIP lab management course 2005

The first part of the lab management course took place at the end of January. We received very positive feedback and are planning to run this course again next year.

YIP meeting 2005

22-24 June at the EMBL in Heidelberg.

The meeting is held back to back with the YIP symposium. You will receive a separate invitation via email. Please register at www.embo.org/projects/yip/yipmeeting05.html

The EMBO YIP will cover the costs of travel and accommodation.

YIP Symposium on Quantitative Biology 2005

24-26 June 2005 at the EMBL in Heidelberg.

The registration to the symposium is open. Please register at www.embo.org/projects/yip/quantitative_biology/index.html

EMBO YIP will cover your registration, travel and accommodation. Registration for your students is free, but other costs will not be covered.

BioVision and BioVisionNext

YIPs have been offered free registration to both events taking place from 11 - 15 April and 9 - 11 April respectively in Lyon. Please let us know if you are interested in attending this event.

And finally the obligatory reminders:

YIP lectures

Lectures given by EMBO Young Investigators at international meetings can be sponsored. Please let us know if you are talking at a meeting where you would like to be singled out as an EMBO YIP. We will contact the organizer and offer them the sponsorship. In return they are being asked to announce the lecture as an EMBO Young Investigator lecture in the meeting programme.

YIP networking

The EMBO YIP sponsors networking: joint group meetings, student exchanges or visits to YIP labs are sponsored by the programme. Just send us an email informing us about the interaction, if possible beforehand. Interactions involving EMBL group leaders are sponsored as well.

With best wishes
Gerlind and Kim
